Advantages of UITF Auto-Invest

Hassle-free Savings and Investment

Affordability

Invest for as low as Php1,000 a month.

Enjoy the benefits of Cost Averaging

Cost Averaging is an investment technique where you buy/invest in units of funds regularly over a period of time. This averages your subscription/investment cost and gives you more potential to earn.

Avoid the risk of wrongly timing the market

A lot of inexperienced investors tend to incorrectly time the market. Despite the age-old advice to buy low and sell high, unsystematic investing leads many to do the opposite. Auto-invest helps you avoid this risk because your investments are automatically processed regardless of the movement of the market.

Simply subscribe to Auto-Invest and leave the decision of correctly timing the market to our professional fund managers.

Professional fund management

LANDBANK's pool of professional fund managers constantly monitor markets for investment opportunities to deliver your financial goals.

3 simple steps to subscribe:

1. *Open a UITF Account in any LANDBANK Branch (If you don't have one yet.)*
2. *Fill-out the UITF Regular Subscription Form*
 - ✓ *Indicate amount of regular investment*
 - ✓ *Choose frequency of contribution (Monthly or Quarterly)*
