**INVESTMENT OBJECTIVE AND STRATEGY**

The LANDBANK US\$ Money Market Fund intends to achieve for its participants a moderate alternative investment outlet through investments in high-quality and credit-worthy fixed-income instruments.

**CLIENT SUITABILITY**

A *client profiling process* shall be performed prior to participating in the Fund to guide prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The LANDBANK US\$ Money Market Fund is suitable only for investors who:

- have a Conservative Risk Profile
- are willing to dedicate a small portion of their portfolio, preferably excess funds, for short term dollar-denominated investments and wish to be able to preserve capital, generate current income and maximize the yields on their excess cash;
- understands the significance of fluctuating unit prices and that any income/loss arising from market volatilities and price fluctuations is for client's account.

**KEY RISKS AND RISK MANAGEMENT**

**You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

**Credit Risk/Default Risk.** The possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of security which the borrower issued.

**Reinvestment Risk.** The risk associated with the possibility of having lower returns or earnings when maturing funds or the interest earnings of funds are reinvested.

**Interest Rate Risk.** This is the possibility for an investor to experience losses due to changes in interest rates.

**Inflation Risk.** The risk that the value of an investment is lower than the rate by which the prices of goods and services go up.

- The Fund implements a risk management policy that applies the principles of Value-at-Risk (VaR). VaR is a measure of the likely volatility of earnings due to rate fluctuations in the market. It is defined as a statistical estimate of the amount of loss that an "open" risk position is unlikely to exceed during a given time period with a given level of confidence.
- The Fund's investment outlets have been subject to proper screening and evaluation in accordance with LANDBANK –TBG's accreditation process and minimum regulatory requirements.

**REDEMPTION CONDITIONS**

Surrender of the Confirmation of Participation or submission of a Letter of Instruction and such other reasonable requirements which the TRUSTEE may require; subject to penalty if redeemed before the minimum holding period.

For Partial Redemption, remaining balance should not be less than minimum investment.

**FUND MANAGER'S REPORT**

The global and domestic macroeconomic backdrop is fraught with so much uncertainties due to high inflation and the tight global monetary policy this necessitated. Both the Federal Reserve and the European Central Bank have been raising interest rates since last year. This has pushed global yields to very high levels, exerting enormous pressure on the world economy. Apart from the foregoing, other factors that blight the global economic outlook are: OPEC's propensity to keep oil prices at elevated levels, the Chinese economic slowdown and the possibility that geopolitical flashpoints could accidentally be triggered. The confluence of all these factors has led to the inversion of the U.S. yield curve which has more often than not, presaged a recession.

**VIEW STRATEGY**

Dollar time deposit rates have surged with the inversion of the US yield curve. Simply load up on the highest-yielding dollar time deposits available while the going is good.

UITFs are not deposit accounts or an obligation of, or guaranteed, or insured by the Land Bank of the Philippines or its affiliates or subsidiaries and, therefore, are not insured or governed by the Philippine Deposit Insurance Corporation (PDIC). Due to the nature of investment, yields and potential yields cannot be guaranteed. Any income or loss arising from market fluctuations and price volatility of the securities held by the fund/account, even if invested in government securities, is for the account of the trustor/investor. As such, funds of the trustor/investor, when redeemed, may be worth more or be worth less than his/her initial investment/contributions. Historical performance, when presented, is purely for reference purposes and not a guarantee of similar future results. The Trustee is not liable for losses, unless upon willful default, bad faith, or gross negligence. Investors must read the complete details of the fund in the Plan Rules, make his/her own risk assessment, and when necessary, he/she must seek independent/professional opinion, before making an investment.

# UNIT INVESTMENT TRUST FUND

## ABOUT THE US\$ MONEY MARKET FUND'S BENCHMARK

---

Percentage change in the price of the 3-month U.S. treasury par yield.

### Description of the Benchmark

The par yield curve, which relates the par yield on a security to its time to maturity, is based on the closing market bid prices on the most recently auctioned Treasury securities in the over-the-counter market. The par yields are derived from input market prices, which are indicative quotations obtained by the Federal Reserve Bank of New York at approximately 3:30 PM each business day.

### Key Characteristics

- 3-month (91 days) tenor
- prevailing par yield curve rate on the 91-day U.S. treasury bill
- traded in the biggest and most efficient bond market
- yield accurately reflects prevailing economic conditions

### Relation to the fund's objectives/investment strategies

The fund is designed for conservative investors with dollar placements who desire a stable source of income but can also tolerate a small amount of risk to earn a little extra return. The 3-month U.S. treasury bill rate approximates the return of the fund which is invested in a combination of deposits and short-term ROPs and/or other sovereign dollar-denominated bonds.
