Co-Location Data Center of the Disaster Recovery Site

Description:

LANDBANK is inviting interested vendors to participate in the budget discovery/exploratory study of the **Six (6) Years Co-Location Data Center (CDC) of the Disaster Recovery Site.**

CDC service providers offer all the data center essentials—from rack space, to environmental requirements, network, bandwidth, multi-level security, and even IT hardware and software the whole IT infrastructure complete with resource monitoring systems. The Bank approves the transfer of LBP IT back-up site to a service provider thru a co-location arrangement.

CDCs are built to comply with ISO data center standards (location, power requirements, telecommunication connectivity, space/expansion requirements and security), thus, addresses the system unavailability in case of worst-case scenario.

For interested providers, please email or call:
