Upgrade of the existing VSE6.2 to VSE6.3 with One (1) Year Maintenance and Support

LANDBANK is inviting interested vendors to participate in the budget discovery/exploratory study of the Upgrade of the existing VSE6.2 to VSE6.3 with One (1) Year Maintenance and Support

The Bank's core banking application, Deposit System, runs in our IBM mainframe server. The mainframe server is designed to run voluminous transactions under highly secured environment. The upgraded VSE6.3 version is an enhancement to improve the performance and capabilities of the operating systems, security features, improved database management and user interface.
