

## REQUEST FOR INFORMATION

<b>Title of the project</b>	<b>Supply, Delivery, Installation, and Configuration of the existing Storage System Solution for IDRARS for the ingestion of eSOA system with 200TB usable capacity (100TB each site) and 2 compute nodes with Three (3) Years Warranty and Support Services for Head Office and Disaster Recovery (DR) Site</b>
<b>Date of Posting</b>	08 July 2025
<b>Description</b>	<p>Storage System Solution for IDRARS for the ingestion of eSOA system with 200TB usable capacity - The Storage System Solution for IDRARS, supporting the ingestion of the eSOA system, delivers 200TB of usable capacity with a high-performance, scalable, and secure architecture. It ensures efficient data ingestion, comprehensive data protection, and continuous system availability to fulfill the bank's stringent operational and regulatory requirements.</p> <p>Due to the high demand from the Bank's mission-critical systems, both in production and other environments, there is a critical need for resilient and scalable infrastructure solutions that ensure continuous operation, data integrity, and regulatory compliance.</p>
