

LAND BANK OF THE PHILIPPINES**2022 Performance Highlights****“Taking the Lead in Serving the Nation”***Financial Performance*

LANDBANK recorded new milestones in 2022, in addition to surmounting the enduring effects of the COVID-19 pandemic and new challenges.

LANDBANK recorded a Net Income of P30.06 billion in 2022, which is a 38.2% increase from an already impressive P21.7 billion net income in 2021. This surpassed the 2022 target income of P25.7 billion due to a significant increase in gross revenues, mainly brought about by an increase in interest income on loans, income on investments and other income from sale of assets as a result of the LANDBANK-UCPB merger.

Total Assets exceeded the three-trillion-mark to P3.14 trillion in 2022, 21.54% year-on-year (y-o-y), which may be attributed to the increase in deposits which in turn funded the growth in loan portfolio by P238.26 billion. Total liabilities of P2.93 trillion is higher by P554.14B or 23.30% from P2.38 trillion in 2021 largely due to deposit liabilities which posted a y-o-y growth rate of 21.77%.

LANDBANK remains to be the fourth largest Bank in terms of Capital with P210.59 billion by end-2022 from P207.68 billion in 2021. The increase was mainly due to the net income in 2022 despite the remittance to the National Government of P8.45 billion special cash dividends in June 2022 and decrease in other comprehensive income.

LANDBANK-UCPB Merger

On 24 September 2021, UCPB was recognized as a subsidiary of LANDBANK who acquired P12 billion worth of UCPB Special Preferred Shares from PDIC. UCPB shareholders approved the merger plan with LANDBANK during its stockholders' meeting on December 14, 2021. The legal merger between LANDBANK and UCPB took effect on 01 March 2022.

As of 31 December 2022, most transition activities based on the integration plan have been completed while remaining activities on loans, systems conversion and migration, audit of remaining former UCPB branches, as well as closure or conversion of former UCPB branches are targeted to be accomplished on or before second quarter of 2023.

Intensifying Support to the Agricultural Sector

LANDBANK remains steadfast in delivering financial and development assistance to its mandated sectors – small farmers and fishers, agrarian reform beneficiaries, small and medium enterprises and other agri-aqua projects – and other key players in the agri-business value chain.

Loans to agriculture amounted to P261.7 billion, 5.5% higher from P247.9 billion in 2021, of which P46.6 billion directly benefitted small farmers and fishers including those channeled through different conduits (cooperatives, farmers' associations, rural financial institutions). A total of P166.8 billion supported small, medium and large agri-business enterprises, and the remaining P48.3 billion for agri-aqua related projects of LGUs and GOCCs.
