Branch Operation Xformation (BOX) Project

LANDBANK is inviting interested vendors to participate in the budget discovery/exploratory study of the LANDBANK's Project Branch Operation Xformation.

The Bank requires a software solution that will leverage digital transformation of branch operations by streamlining processes and going paperless for the bank's over-the-counter (OTC) transactions (e.g., cash deposit, cash withdrawal, check deposit, check encashment, and ONCOLL payments). It should be capable to perform online pre-booking of transactions through different channels (Mobile Banking Application (MBA), LBP Website, and LBP iAccess); and self-service application using tablet for walk-in clients. The system should also provide analytics for client feedbacks, waiting and servicing times, and volume of transactions in the branches.
