- The Fund implements a risk management policy that applies the principles of Value-at-Risk (VAR) and Modified Duration. VaR is defined as a statistical estimate of the amount of loss that an "open" risk position is unlikely to exceed during a given time period with a given level of confidence. Modified Duration is a means to measure the change in the value of a security in response to a change in interest rates. The formula is used to determine the effect that a 1% change in interest rates will have on the price of the bond.

### FUND MANAGER'S REPORT

The Philippines' GDP slowed down to a 6.0% rate in the second quarter, down from the previous quarter's 6.8% and falling short of market expectations (6.6 – 7.0%). The PSA noted Manufacturing, Trade, and Construction as the main drivers of the quarter's growth –consistent with the current efforts of the administration's fiscal program.

The PSEi reached 7,276.82 at quarter-end -descending from an all-time high of 9,058.62 in January. The index tumbled since then hitting a low of 6,989.88 by end-June before reversing as the third quarter entered. In the period of the second semester, the high was in early September at 7,881.82 level; it then closed the quarter at 7,276.82 amid fears concerning the local inflation outlook and uncertainties in global trade relations. The Dow Jones Index ended the third quarter at 26,458.31 managing volatility triggered by trade swings between U.S. and China while the NASDAQ Composite Index ended at 8,025.085.

### VIEW STRATEGY

To minimize the volatility due external trade war tensions, rising inflationary pressures, and considerable foreign selling pressure on the local market, we've had substantially increase our cash position by reducing our exposures on equities, and shorten the portfolio duration. Moving forward, our strategy is to deliberately accumulate issues that can outperformed the PSE index, and cautiously lengthen the fund's portfolio duration by adding fixed income on the medium to long-end of the yield curve for higher yield.
